

## theoretical perspectives on cognitive aging

Sat, 08 Dec 2018 07:59:00 GMT theoretical perspectives on cognitive aging pdf - Cognition is "the mental action or process of acquiring knowledge and understanding through thought, experience, and the senses". It encompasses processes such as attention, the formation of knowledge, memory and working memory, judgment and evaluation, reasoning and "computation", problem solving and decision making, comprehension and production of language.

Wed, 05 Dec 2018 18:26:00 GMT Cognition - Wikipedia - Ageing or aging (see spelling differences) is the process of becoming older. The term refers especially to human beings, many animals, and fungi, whereas for example bacteria, perennial plants and some simple animals are potentially biologically immortal. In the broader sense, ageing can refer to single cells within an organism which have ceased dividing (cellular senescence) or to the ...
